

Ermelito Calinga

Application Support Analyst | SQL | APIs | Production Support

0433 721 540 | ecalinga@gmail.com | <https://www.linkedin.com/in/ermelitocalinga/>

PROFESSIONAL SUMMARY

Application Support Analyst and Software Developer with over 16 years of experience supporting enterprise applications, SaaS platforms, system integrations, and mission-critical business systems. Proven ability to investigate and resolve complex production issues using SQL, APIs, log analysis, and structured root cause analysis while collaborating with business users, vendors, and cross-functional technical teams.

Skilled in C#, .NET, SQL Server, Power Platform, Microsoft 365, Entra ID, ServiceNow, workflow automation, testing, release management, business analysis, and continuous service improvement. Strong experience across Incident, Problem, and Change Management within enterprise environments.

Experienced in leveraging AI-assisted development tools, including OpenAI Codex, to accelerate software development, improve code quality, modernize legacy applications, automate repetitive tasks, and rapidly prototype scalable solutions.

CORE SKILLS

- Application Support (L2/L3)
- Incident, Problem & Change Management (ITIL)
- SQL Server, MySQL, PostgreSQL
- REST APIs & Postman
- ServiceNow
- Root Cause Analysis (RCA)
- System Integration Troubleshooting
- SaaS Platforms (Microsoft 365, ServiceNow, Power Platform)
- User Acceptance Testing (UAT)
- Vendor & Stakeholder Management
- Microsoft Power Platform
- Power BI, Excel & Reporting
- Power Apps & Dataverse
- Business Analysis
- Disaster Recovery & Business Continuity
- Technical Documentation & Knowledge Management

TECHNICAL TOOLS

Languages & Development:

C#, .NET, ASP.NET MVC/Core, Web API, VB.NET, Python

Databases:

SQL Server, MySQL, PostgreSQL, SSIS, SSRS

Platforms:

Microsoft 365, Power Platform, Dataverse, ServiceNow, Azure AD, Entra ID, Active Directory

Reporting & Analytics:

Power BI, Excel, DAX

Support & Integration:

Postman, REST APIs, Log Analysis, Production Support

AI Development Tools:

OpenAI Codex (AI-assisted software engineering), ChatGPT (GPT-5.5), Git, Visual Studio, Visual Studio Code, SSMS, pgAdmin, MT4 / MT5

WORK EXPERIENCE

V/Line | Oct 2024 – Oct 2025

Business Analyst – Application Support

- Provided L2/L3 support for critical business systems.
- Managed incidents, requests and changes using ServiceNow and Jira.
- Maintained SLA compliance across support activities.
- Investigated production issues using SQL and logs.

- Performed root cause analysis and service restoration.
- Troubleshoot REST API integrations using Postman.
- Coordinated with vendors, developers and business users.
- Supported UAT, releases and production deployments.
- Contributed to Disaster Recovery planning and testing.
- Built reporting and workflow solutions using Power Platform.

Vocus Group Limited | Dec 2018 – Jun 2024

Analyst Programmer & L2/L3 Application Support

- Developed and maintained enterprise applications using C#, .NET and SQL Server.
- Designed and enhanced system integrations using REST APIs and backend services.
- Developed ETL processes and data solutions using SSIS and SQL.
- Built operational dashboards and reporting solutions using Power BI.
- Investigated complex production issues across application, API and database layers.
- Performed root cause analysis to reduce recurring incidents and improve system stability.
- Resolved data integrity and integration issues through SQL and log analysis.
- Automated manual operational processes, reducing support overhead.
- Produced technical documentation, support guides and knowledge articles.
- Worked with business users, vendors and development teams to deliver system enhancements.
- Contributed to Disaster Recovery planning, testing and recovery procedures.
- Provided L2/L3 support for critical business applications and services.

Department of Education | Apr 2018 – Nov 2018

Application Analyst Programmer

- Remediated system vulnerabilities in line with IT security standards.
- Coordinated penetration testing and validation activities.
- Improved application performance through debugging and optimisation.
- Supported compliance and risk management initiatives.

Organon Consulting Pty Ltd | Feb 2018 – Apr 2018

.NET Developer – Systems Integration

- Developed integrations between Microsoft Dynamics 365 CRM and external systems using C# and REST APIs.
- Implemented real-time data synchronisation between enterprise applications.
- Built validation services to improve data quality and system integrity across integrated platforms.

Pacific Islands Club | Jul 2004 – Feb 2007

Hotel IT Support / Systems Support

- Provided IT support across Front Office, Reservations, Finance and Food & Beverage departments.
- Supported reservation systems, POS terminals, printers and desktop workstations.
- Resolved hardware, software and network connectivity issues for hotel staff.
- Performed software installations, system maintenance and user support.
- Assisted with backups, data recovery and business continuity activities.
- Developed internal applications and reports using Microsoft technologies.

EARLIER CAREERS (2001 – 2018)

Software Developer | Analyst Programmer | IT Support

- Developed enterprise applications using .NET, JavaScript and SQL Server technologies.
- Designed databases, integrations, ETL processes and reporting solutions.
- Delivered full software lifecycle activities from development through deployment.

- Supported business applications and resolved technical issues for end users.
- Created technical documentation, user guides and training materials.

EDUCATION

Bachelor of Science in Computer Science

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Microsoft Certified: Power Platform Fundamentals (PL-900)
- ITIL 4 Foundation (Training Completed)
- Business Analysis Foundations (2025)
- Advanced Power BI – DAX & Calculations (2025)
- Building Model-Driven Power Apps (2025)
- Cybersecurity Foundations & Penetration Testing (2023)
- Statistics & Python Programming (2023)
